About the course

At many of our campuses across Birmingham, we have ESOL (English for Speakers of Other Languages) courses for adults, catered to individual needs and levels that work for you; from Pre-Entry to Level 1 and part-time courses during the day, evening and at the weekends. Our ESOL courses will help to support and develop confidence with English, supported by highly experienced ESOL tutors. As part of the programme you will also be working on improving your maths together with developing IT and employability skills. Classes are designed to support you with English in everyday life and preparing you for work, progression onto further study and employment.

What areas will I study?

You will improve your reading, writing, speaking and listening skills in English, as well as your confidence using the language. You will practice the skills you need to get a job or move onto a vocational course or further academic studies to prepare you for employment.

What are the entry requirements?

Depending on your prior qualification will depend on your level of course you are enrolled onto. There are no formal entry requirements, you will take an English assessment to find out what your current level of English is in reading, writing, speaking and listening. This will help and your tutor to identify areas that you need to develop and the level of course you will be enrolled onto.
